BMS Department Report on one day FIELD TRIP-SEAWOODS GRAND CENTRAL MALL BY TYBMS (MARKETING) STUDENTS

Date: Wednesday, 16th March 2022.

The third year BMS Marketing students (and FYB.Com students) of Bunts Sangha's S.M. Shetty College of Science, Commerce and Management Studies, Mumbai were taken for a field trip to Seawoods Grand Central Mall. The trip intended to provide practical know-how of Mall Management which is a part of their Retail Management curriculum. Seawoods Grand Central Mall, an iconic complex, located at Navi Mumbai, is part of Nexus Group of Malls. Seawoods Grand Central Mall is India's largest Transit Oriented Development (TOD). A TOD is a crossroad of enterprise and entertainment, culture and commerce; where offices, malls, restaurants and recreational spots converge around a transit station or stop. A massive 1 million sq. ft. mall located in Navi Mumbai, Seawoods Grand Central Mall was a classic spot for the students to have a practical approach to mall management. A session was conducted by Mr. Mukesh Kunder (Operations Head) and Mr. Wasim (Asst. Manager Operations) briefing students on the infrastructure, facilities, positioning, marketing, retail management, budgeting, amenities etc. Students came up with a lot of queries about Mall management which was answered by both the staff. Students were then taken around the mall to view the various facilities and amenities offered. Students were also shown the various green initiatives taken by the Mall management. The students were overwhelmed with the experience and enjoyed the experiential learning. Students shared positive feedback for organizing the visit. They were given a certificate for experiential learning by the Department of Management Studies.

REPORT OF SYBAMMC FIELD TRIP TO FILM MUSEUM

DATE: 16TH March, 2022

To gain a deeper understanding of Indian cinemas, the Mass Media Department of Bunts Sangha's S.M Shetty College of Science, Commerce, and Management Studies organized a visit to the National Museum of Indian Cinema on March 16, 2022, led by Films and Communication Professor Chetan Mathur.

The student learned about various filmmaking techniques such as cinematography, visual effects, editing, past vs. present filmmaking techniques, and various filmmaking equipment. They also learned about the history of Indian cinema.

The National Museum of Indian Cinema, which opened recently, is the first of its kind. It is housed in two buildings in the Films Division complex and has a public space where visitors can relax and sit. Gulshan Mahal, a beautifully restored nineteenth-century heritage building, is divided into nine sections that take visitors on a journey through 100 years of Indian cinema. Its collection includes a variety of documents, posters, models/dioramas, multimedia kiosks, and artifacts. The nine sections are divided into two floors and are as follows: The Origin of Cinema, Cinema Comes to India, Indian Silent Film, The Advent of Sound, The Studio Era, The Impact of World War II, Creative Resonance, New Wave, and Beyond, and Regional Cinema. However, the building is not accessible to people with disabilities, as one must climb wooden stairs to reach the first floor.

The four floors of the New Museum Building are home to four fully air-conditioned exhibition halls. Level 1: Gandhi and Cinema; Level 2: Children's Film Studio; Level 3: Technology, Creativity, and Indian Cinema; and Level 4: Cinema Across India are among them. The children's film studio is a must-see for young audiences and school groups because it provides an immersive experience for children by utilizing interactive elements such as a stop-motion animation studio, a sound effects and mixing studio, a photo studio, and more. Instead of a tour guide, the museum has digital kiosks with old telephone receivers for specific exhibits that visitors can pick up and listen to in three languages. There are also timelines that, where applicable, place India on the global map.

The visit was extremely informative and provided the students with a wealth of information about the history of Indian cinema. The industrial visit to the National Museum of India was undoubtedly an enriching experience for students interested in learning about the film industry.

Feedback and ATR: Students expressed satisfaction with the trip and agrees that it created more awareness

The trip is to be conducted every year for students of SYBAMMC.

DEPARTMENT OF ECONOMICS: FIELD TRIP TO LONAVALA

ON 8TH FEBRUARY 2020

Report

Between the crowd of 52 students and two teachers, the journey began at sharp 7:30 from the college gate toward the valleys of Lonavala. Decided as per schedule our first destination was **Sunil's Wax Museum** located on the top of hills having more than 87 models. It is a family friendly museum featuring lifelike wax replicas of Indian and international celebrities. The creator had been truly dedicated his souls while creating them, from the philosophical to cricketer and from Bollywood to politics the models were crafted. it was really amazing experience to the students and us. And later our journey began towards the most nature loving located between the Sahyadris valleys "**The Bhushi Dam**". It's a masonry dam on Indrayani River in Lonavala. Surrounded with green lands and away from city life having enchanting sights everyone felt relax and peaceful towards it. Having lunch nearby, our journey began towards the **NAP National Association for Blind** near Khandala. to fulfill the socio-economic needs of the ageing blind NAB (India) in 1970 established the Lions home for ageing blind. Together we hoped to make a amazing difference being with such a wonderful people. One the person who had four years of work experience in NAB guided us about the working hours and the ability of the people who are working there for many years. We had spent only couple of hours with then and these hours tend to the most emotional moments of the journey. The Association engaged people in small medium enterprises which produce small products and they earn from those activities. Their products include soups, bedsheets, napkins and towels, shopping bags and incense sticks and many other small products. We purchased some of the products. Some of the students really felt very blessed by talking to them and hearing to their experience and story. As it quotes "people can live life without eyesight but not without vision." And the people we meet the day had extraordinary vision in their life and for their surroundings. And around 4:20 we began our return journey toward our home taking the great message that in "life generosity is never a quality of weak people it's a choice of being the same."

Outcome:

- Learning by experiencing is with the realities of the real world
- How old wisdom can be tapped into productivity
- How can we replicate Madame Tussauds in our own Pune can create an economy out of it

INDUSTRIAL VISIT 2017-18

BAF & BBI, Mumbai to Mahabaleshwar 3days trip started with a deluxe bus on 25th Jan'18 at 7:00 a.m from our college. The journey in bus was full of energy and enthusiasm by playing songs, dancing, and playing card games with a lot more fun. We reached Pune at around 1:00p.m and checked into the hotel Sadanand Regency, a 3star hotel with luxurious rooms, swimming pools and beautiful views from our hotel window rooms. After having our delicious lunch we proceeded for our Industrial visit to "Katraj Dairy" by dressing up in formals.

"Katraj Dairy" is a dairy located in the Pune Zilla. The Head Manager welcomed us and gave us brief information about the dairy and its products over the past years through a short film. We were then taken forward to witness the processing and packing process in real. It was a great opportunity for the students to visit and acquire knowledge about the production line.

Next day we left for Mahabaleshwar. Mahabaleshwar is a hill town in Western Ghats, apart from its strawberries, Mahabaleshwar is also known for its numerous rivers, magnificent cascades and majestic peaks. This was also one of the beautiful place to visit.

The overall feedback of the industrial visit was good.

INDUSTRIAL VISIT 2017-18

ACTION TAKEN REPORT

BSc.IT department visited Aurangabad for Industrial Visit during the year 2017-18. Students appreciated the Food, Location, Site Seeing, Travelling, Accommodation positively. There was average response for industry visit and there was just a seminar from the company without any hands-on session. College has taken serious action by discontinuing the tour operator for the next year. College is also taking care of the industries which can help the students to understand the actual practical implementation in the IT industry.

Any recommendation / Observation that can help in improving future industrial visits

Better hotels can be chosen as the food wasn't as expected, also better IV can be chosen as we've Lokmat in Mumbai as well.

Visit to a place where many students cant go, Pune is easy to reach for any Student. IV for 5-7days would be great.

Traveling services can be improved.

Food can be better, as observed in Pune, students weren't happy with the food.

Going for IV outside Maharashtra.

Overall good , but take people to better places to visit.

IV days should be increased and places should be more great and it should be out of Maharashtra and travelling service should be improve and food service too.

The food could have been better.

Please choose the hotel good atleast food and need atleast 3 bottle per person because it was too hot climate that's why we were so thirsty

Clean rooms!

-

More than 3 days can be done and preferably outside maharashtra

Travelling in ac bus would have been more convenient.

Give us time to Rest .. and enjoy each place properly.. keeping more non veg dishes .

Let people order food from outside when the hotel-provided food is not good.

Food was not good other then that everything was good

More days needed for iv

No changes it was best

More daysss

The stay should be of More days

Can plan for a better place for iv 2nd day got wasted visiting agah Khan palace and market, hotel was ok but food was worthless no taste for vegetarian, transportation was not comfortable.

Food quality shall improve.

Improve food , travelling busses

The food was not good at all. Longer trips and farther away places would be great.

The have enjoyed very much but we did not get glass in room no 308 for having medicine

First of all you guys should know how the food and what kind of food is provided by the hotel next is the breakfast on the first day. Just a great breakfast I tell you guy just one burger that too the cheap one and then u write "full breakfast". Thus trip was a total waste of money for me personally.

The hotel Zip was good but whenever we used to call and tell them to get extra bedsheets and bottles they used to never revert back.

Nice food

The days for IV should be more

Improve the food quality and increase the stay.

~~

Please work on food served and focus on plces where students can explore more of that place

Provide better food pls

Improvisation is required in hotel foods..

Overall it was a good experience. AC bus would have been better choice because it became very hot inside the bus after a point while traveling. A day or 2 more would have made the iv a little more smoother, but above all big thank you to our teachers for this iv. Everyone had a great time.

Make better arrangements for food

Independence

More quality time to be spend.

A/C bus can help improving future IVs

Over all Worst experience

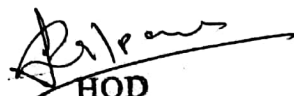

Food taste
