CS Executive Entrance Test (CSEET)

Introduction

ICSI introduces CS Executive Entrance Test (CSEET) in place of Foundation Programme

To meet the stakeholders' expectations and to further enhance the quality of future members is the prime objective of the Vision New ICSI 2022. The Company Secretaries (Amendment) Regulations, 2020 require introduction of CS Executive Entrance Test (CSEET) in place of the Foundation Programme. With the introduction of CSEET from February 3, 2020, new registration to the Foundation Programme has ceased to exist w.e.f. February 3, 2020. CSEET is the only qualifying entrance test for registration to the CS Executive Programme. CSEET has been introduced keeping in view the diverse academic standards of students seeking admission in the Company Secretary Course, to attract meritorious students and to test their aptitude for the Company Secretary profession. The candidates appearing/passed in class 12th examinations shall be eligible for appearing in the CSEET. All the students seeking admission in the Company Secretary Course including graduates/ post graduates, etc. shall be required to qualify the CSEET from February 3, 2020 onwards. The process of selecting meritorious candidates through CSEET will enhance the quality of future members to meet the expectations of the industry and the regulators.

Regulation 20(1)(i) of the Company Secretaries (Amendment) Regulations, 2020 contains the provisions of CSEET.

REPORT

Resource Person: Michelle Fernandes

Date of Event: 8th April, 2021

Timing: 9am to 10am

Targeted Group: - Undergraduate students (BBI & BAF)

No of Students Attended: 286

(Male =132 + Female =154)

This was a very informative and interactive session, conducted by the BBI and BAF department of Bunts Sangha's S M Shetty college. The session promoted the growing career prospects in the field of actuarial science and the path to be followed in order to pursue this course.

The resource person Ms. Michelle had herself cleared 6 papers of the course and is currently pursuing her masters in the field of applied finance in Australia. She explained the entire course structure in depth and the procedure to be followed in order to complete it. She gave an in depth view and the reality of the difficulties faced by students when completing the subject parts of this course. The importance of mathematics and statistics for this course along with the examination pattern structure was spoken of. A great emphasis was put on the importance of pursuing actuarial science simultaneously with a bachelor's or a master's degree. The students found the session very fruitful as all of their queries and doubts regarding the course were cleared. The Speaker also focused on the importance of choosing a right course to pursue. She spoke about higher education in foreign universities and the benefits of studying a skill shortage course.

The students were provided with a realistic picture of the advantages of pursuing a high demanded course and the sacrifice that is required to endure it. A lot of information regarding the UK and Indian actuary institutions and their certifications was provided. She focused on the importance of pursuing higher education and working hard in any field because again, 'Nothing worth having comes easy'. And finally, all the rambling and fleeting thoughts in the minds of the

students have turned into solid images and they are looking forward to engaging their skills and enhancing their knowledge in this course.
