Action Report on IIT Bombay Spoken Tutorial

The overall feedback for the program was excellent. Everyone agreed that they learnt a lot of things of value in this program.

Mixed reviews were received about two questions. First, if the content of the course met the attendee's expectations. Second, if the course material handed out was adequate. To solve these problems, a form will be given to the attendees well in advance before the event where they will write what they expect from the event. Based on this, the topics of the sessions will be decided. The course material will be planned in advance with more inputs so everyone can be satisfied.

As per the positive feedbacks received from the attendees, we are planning to have such events frequently so that students can have a value added certification from a recognized institution.
