Event- Anti-Sexual harassment seminar

Organized by- Department of Mass Media and Communication Skills.

Resource Person- Mr. Abhishek Clifford

Objective- To educate the students about the downfalls of porn addiction and importance of ethics.

Topic- Anti- Sexual harassment

Report- On August 30th, the B.M.M Department of Bunts Sangha's S.M Shetty College Of Science, Commerce and Management Studies, Powai had organised a seminar on Anti sexual harassment program: Cyber ethics and youth relationships by social activist Mr. Abhishek Clifford.

Mr Clifford spoke to the students about Evolution and Media, Youth Relationships and its negative impact on the families, consequences of porn addiction and its coverage in the media, etc through a set of slides. He also reconstructed the lyrics of Alan Walker's Fade into the Do's and Dont's of a youth's life for the students to understand easily.

The seminar was free of cost for the BMM students and was concluded by a question and answer session for their better understanding. The session was very helpful for the students as MR. Cliffords spoke about all the issues that the youth is facing and how media has a hand in that and how we as students of mass media could possibly change for the future generations by being alert and secure and creating awareness in the society.

The workshop provided a good sense of knowledge to the students and ended with the audience gaining more knowledge about sexual harassment and cyber ethics.

Event was fantastic and all the faculties are highly appreciative and genius..just some more practical knowledge on editing could have been shared that would have really helped
Have a workshop for the events again they arent repeated bcos of schedule clash, but can be done if taken efforts. Ultimately it was the best experience for knowing about different fields by the experts also arrange some prizes for seminar attended by students from other College if possible.
I really loved the event, and I am looking for more such workshops, which gives us exposure in Filmmaking and camera operating.

Novato Fiesta ATR (2019-20)

Novato Fiesta was the welcome ceremony for all the new students in the BSc IT department of the college. It was a well-received event. The overall feedback was very positive considering this was the first time for this event.

Some things were taken into consideration after receiving the feedback. The anchors received a little negative review so we have planned to train the anchors well before the event. Time management was a minor problem so plans have been made to make sure every event starts at time and also that the crowd is managed well so everyone is comfortable sooner. Overall, we plan to add more interactive elements for the crowd next year so that everyone feels part of this ceremony.

IT Inauguration ATR (2019-20)

The inauguration was held for the opening year of the IT Association of the BSc IT department. The conference was attended by different departments. The overall feedback was very positive.

This time, the speaker and the topic he would speak on was selected on the basis of student voting. Thus, the feedback was very well received. So, we plan to use this system in the following years too. Since the crowd was a little overwhelming, we have planned to shift the venue to a bigger place.

Enterprise Network ATR (2019-20)

The Enterprise network class was conducted for the FYIT students. It was conducted by Mr. Saurab Lahoti. The overall feedback for the event was very positive.

One area of improvement is content management. Plans are to extend the session for longer hours and also evenly spacing it out so one lecture doesn't get too heavy. We are planning to have more sessions like this so that students can take advantage of them.

Action Taken Report

Considering the feedback of students, it was found that the instructor was not up to the expectations of the students and also contents of the course was not clear as it was based on using tools and not developing the tools using any programming language.

To resolve the problem department made sure that students will be satisfied with course and also they will be made to develop small tools using any programming language.

Also the feedback was shared with the concerned person of ATS Infotech and it was assured students will not be having any problem with the course and its structure in future.

**Capsule Activity- Session on
What is Augmented & Virtual Reality Systems**

On Thursday, 30th January 2020 we had an interactive session on Augmented & Virtual Reality.

What is Virtual Reality (VR):

Virtual reality (VR) is a simulated experience that can be similar to or completely different from the real world. Applications of virtual reality can include entertainment (i.e. video games) and educational purposes (i.e. medical or military training). Other, distinct types of VR style technology include augmented reality and mixed reality.

What is Augmented Reality (AR):

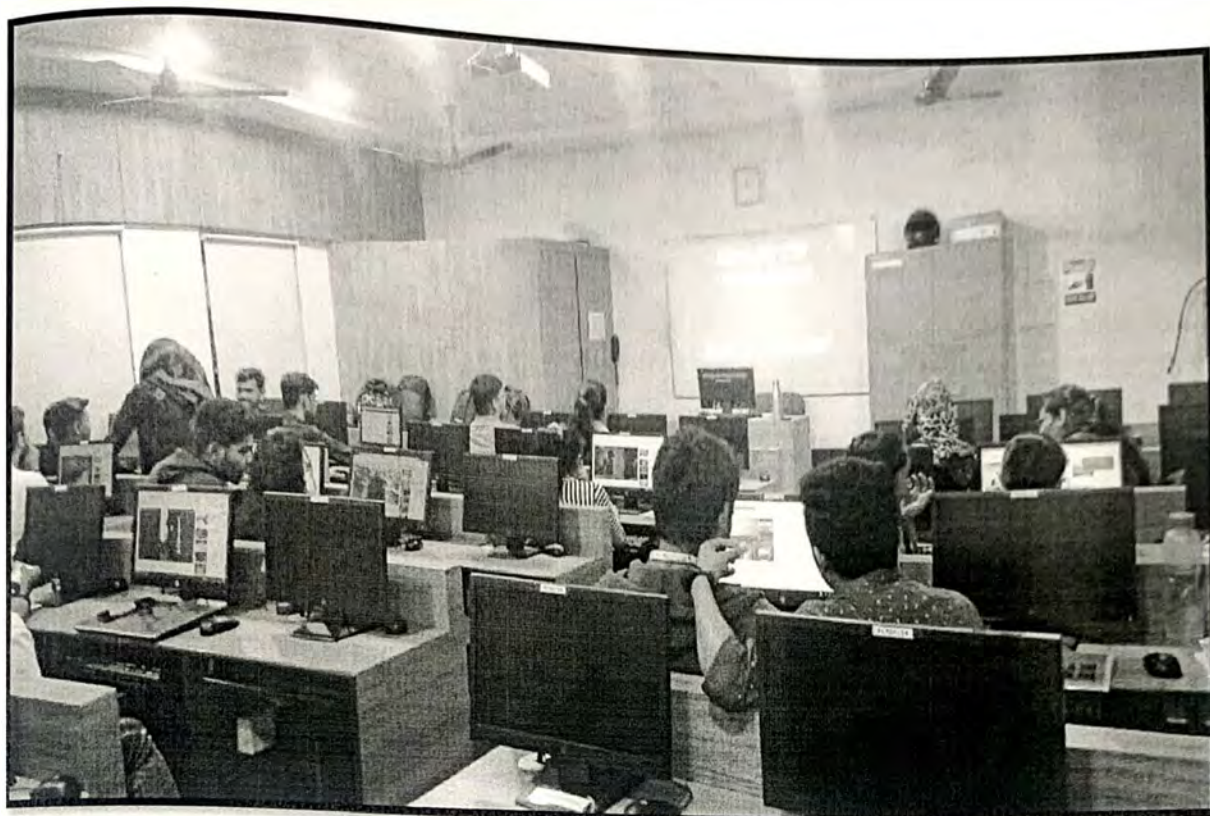

AR can be defined as a system that fulfil three basic features: a combination of real and virtual worlds, real-time interaction, and accurate 3D registration of virtual and real objects.

Asst. Prof: Nabila Kazi conducted the session for students, total 28 students attended this session. During the session the students gave wonderful insights regarding the topics. The session was excellent in terms of information gained as well as interaction among students. Further it was concluded, that the students should take interest in attending such enlightening session and also inculcate such concept into their projects in order to grow educationally as well as professionally. Overall it was a successful event.
