Screenshots of the Session

A checklist for your first job

- ★ Reach office on time everyday.
- ★ Take feedback sportingly & try to improve, not just for the sake of office, but for yourself too.
- ★ Don't let mistakes pull you down!
- ★ Ask for help & guidance when required.
- ★ Be among successful, focussed people who have a vision: it rubs off.
- ★ Learn public speaking & presentation skills.
- ★ Treat others well: as you would like to be treated.

The illustration shows a person with dark hair and a yellow shirt sitting at a desk. On the desk is a laptop, a small potted plant, a red cup, and a red desk lamp. Above the person is a round clock and a shelf with three colorful binders. The background is white.

How to improve ourselves on a regular basis

1. Have goals: break them down into smaller measurable goals.
2. Make time bound plans: practise time management.
3. Make a to-do list: yearly, monthly & daily.
4. Listen to relevant podcast in your subject of interest.
5. Have a buddy at work or with whom you can discuss & take regular feedback.

The illustration shows a person in a blue business suit with multiple arms. One arm holds a clock, another holds a smartphone, another holds a laptop, and another holds a briefcase. The person is surrounded by floating icons: a gear, a speech bubble, and a calculator. The background is light blue.

Objectives: Ytalk (youth talk) is an activity organized for students across all departments to discuss and to express and speak up about a topic that would be in discussion amongst the society. This platform empowers them to put forth their opinion and share interesting views or counterviews as a healthy debate.

Need: To empower students to raise their voices and aware them about the current media coverage on rapes.

Content: Our society has a set of ideas about how we expect men and women to dress, behave, and present themselves. Bold women are often considered to be gone out of hand, their way of dressing is often considered to be very provoking. Media extensively covers rapes and a lot of public figures and political leaders often blame it on the way girls dress and appear as the media covers this news and often give political angles or provoke communities through twisted headlines and statements.

cover some rape cases extensively and ignore others & preaches sanskaar for Girls to avoid rape.

Our society has a set of ideas about how we expect men and women to dress, behave, and present themselves. Bold women are often considered to be gone out of hand, their way of dressing is often considered to be very provoking. Media extensively covers rapes and a lot of public figures and political leaders often blame it on the way girls dress and appear as the media covers this news and often give political angles or provoke communities through twisted headlines and statements.

Y Talk gives a great platform for youth to express their opinions and thoughts hence this event was organized to discuss this topic.

The Judges for this event were Professor Neena Sharma and Professor Sharanya Sanoj. The conversation was initiated by addressing the root cause of this issue. Some accused the Indian media for sensationalizing rape cases and some talked about the game of victim blaming by the Media. The Panelists proposed the idea of taking Bigger steps in order to curb this Rape culture. The panelists rightly ruled out the theories of Improper clothing, too much freedom, incorrect schooling of girls as the reason for rapes. Several solutions were also put forward by the participants. The audience tossed in some questions for the panelists which was brilliantly and rationally answered. Towards the ending everyone strongly agreed about Media's responsibility and significant role in shaping social and sensitive issues like Rapes. Before concluding the event the judges also enlightened the participants with their constructive opinions. Mr. Rathin Sawant from SYBMS and Ms. Saisaranyya Menon from FYBAMMC were presented with the award of Best Speakers for the session. The event started with greeting the dignitaries and fellow teachers; followed by welcoming the resource person, Ms. Mayuri Salian.

She started the event by interacting with the students and also mentioned all the physical, mental and cardiovascular benefits of yoga. After entertaining some questions from the inquisitive young minds of the participants, Mayuri started with the various 'Aasans' of Yoga.

The students were guided through the most basic and fundamental poses, which were easy to execute. The host's patience helped the participants cope with the various poses. The students learnt multiple poses by the end of the session, as it was an enriching experience for the teachers and students.

The students wished the session would last longer, as they wanted to learn more about the lovely exercise techniques of the art form of Yoga.

The session came to a close after Mayuri answered some more questions and then the hosts bid adieu after ensuring the students we will have more such sessions in the future.

Report - World Mental Health Day - 2020

The Department of Mass Media and Communication Skills in association with The Counselling Centre of Bunts Sangha's S.M. Shetty Educational Institutions conducted an interactive session on 'Understanding and Importance of Positive Mental Health' by Ms. Natasha Mehta (Counsellor, S.M Shetty Institute) on 10th October 2020.

The session was kept with the Goal of bringing light to psychological well-being issues among the students especially with respect to the lockdown period during this pandemic of Covid-19. The session commenced with Ms. Natasha telling us the importance of World Mental Health day. In her words she explained that 'This year, we've all been staying inside more, with our day-to-day routines disrupted, and many of us have felt the negative effects on our mental health. Adjusting to this new normal is hard and the uncertainty is adding another layer of stress. Don't worry we all feel the same way and we understand your concerns.' She proceeded further with some fun activities which included meditation and relaxation exercises. She explained how different people have divergent perspectives and different points of views and that one's perspective does not invalidate another's. A video about chronic stress and its effects and how it can be handled through meditation and exercise. The session concluded with some Q and A by the students and discussions on improving their well

being. The session turned out to be a unique experience for all students.

Need one more session with mam

Best session hope we see this again

The workshop was very useful and I think this is what we needed now .

How to deal with overthinking and especially when we are at home around people. Since there are still a lot of times we aren't used to being surrounded by everyone at home.

U were great and at least for now I don't prefer to suggest anything until and unless I feel something is missing... As per best of my knowledge I have yet, u were awesome at mental help 🙌?...

Thanks for giving such a beautiful session 🙌😊

It was very interesting and I loved it! I would love to have more sessions and some personal sessions too like one student at a time with ma'am. Thank You so much for this!

Nothing.

Must have such sessions at least once a month - especially during these covid times.

We should have sessions like this.

It was a very informative and interesting session. We should have such sessions occasionally sessions should be there every month . it was amazing

Had an amazing time!! Need to have more of these

Please keep a Q&A session with speaker..where we can send in our queried directly to the sender I would like to attend more sessions like this..

We should have such kinds of sessions often.

Analysis:

According to the feedback given by students it is observed that they wish to attend such sessions more often and have a more interactive session.

KAAVISH 2021

CALLIGRAPHY COMPETITION

Currently the entire world is experiencing the desolation and devastation of a deadly virus, the new disease of COVID-19, emerging from the new Coronavirus SARS-CoV 2, has spread throughout the world, affecting more than 200 countries and hundreds of people, with discouraging morbidity and mortality figures.

The clinical picture of patients with COVID-19 has a pattern of respiratory dominance and depends on the tropism of the virus towards the target organs of the body, because SARSCoV-2 uses the ACE-2 receptor for its entry into the host cell. The virus binds ACE-2 with an affinity 10-20 times greater than SARS-CoV. This receptor is highly expressed in multiple body tissues, including lung, gastrointestinal, kidney and cardiac

ONE MINUTE FOR AWARENESS

The students of FYBMS were first trained on online free tools for creating small videos like Renderforest and Canva by the program coordinator Ms. Nidhi Chandorkar.

Post training the students were asked to select any social or environmental issues and create a small video (a minute long) using any free tool and present it in the class.

REPORT

The Online session on **"Introduction to IOT"** was conducted by Asst. Prof. Mithilesh Chauhan for the F.Y.B.Sc.IT (DIV-A) students on 7th November, 2020 over Zoom Platform. The topics covered during the session are:

Basics of data science:

- Definition of IOT.
- Introduction to Raspberry Pi
- Processor of writing a program
- Demo of Sample program- use of Telegram for switching on and off a LED

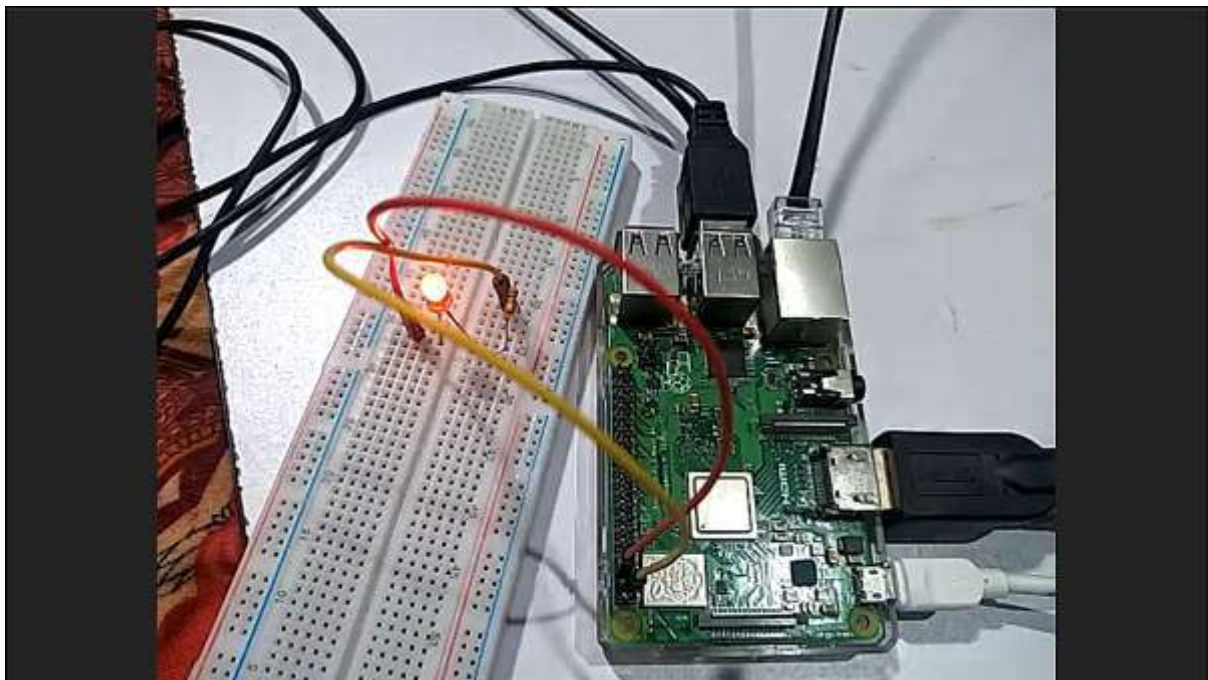

Total students attended the session: 65.

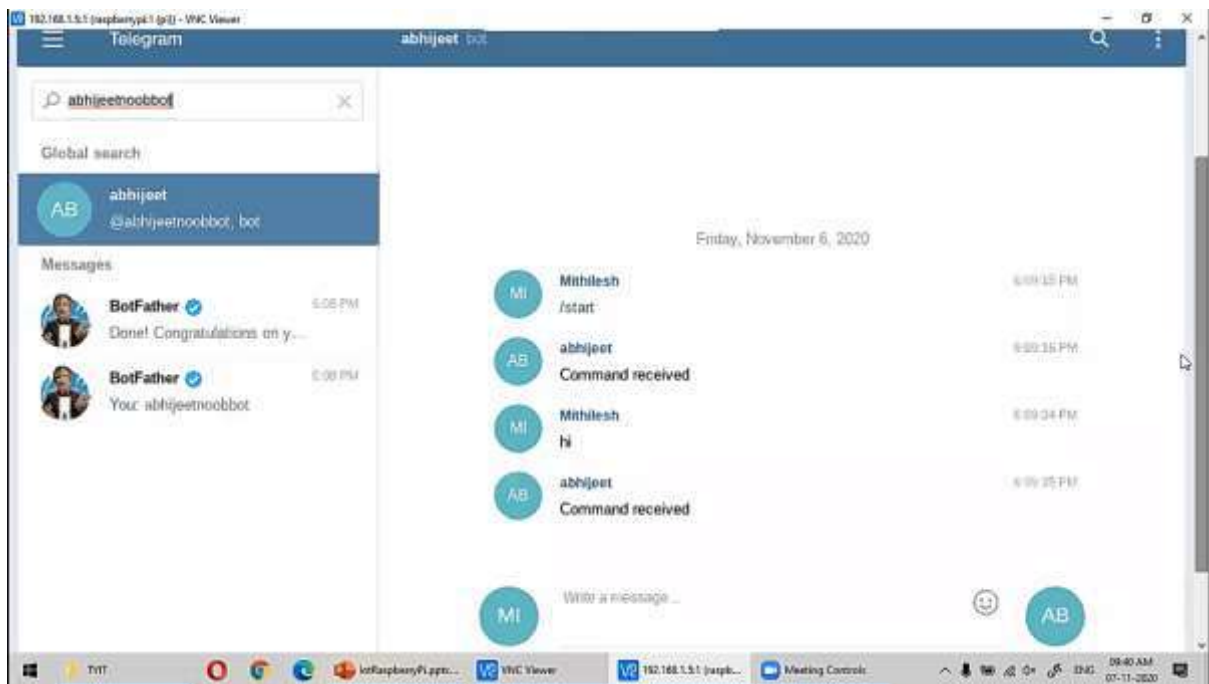

As shown in above figure, there are 40 output pins for the PI. But when you look at the second figure, you can see not all 40 pin out can be programmed to our use. These are only 26 GPIO pins which can be programmed. These pins go from **GPIO2 to GPIO27**.

These **26 GPIO pins** can be programmed as per need.

Some of these pins also perform some special functions, we will discuss about that later. With special GPIO put aside, we have 17 GPIO remaining (Light green Cirl).

WHAT DO DATA SCIENTISTS DO?

A data scientist collects, analyzes, and interprets large volumes of data, in many cases, to improve a company's operations. Data scientist professionals develop statistical models that analyze data and detect patterns, trends, and relationships in data sets.

This information can be used to predict consumer behavior or to identify business and operational risks. The data scientist is often a storyteller presenting data insights to decision makers in a way that is understandable and applicable to problem-solving.

Scalability

The diagram illustrates the concept of scalability in a web application. On the left, a single box labeled 'Instance 1' contains three stacked components: 'Web App', 'Back End', and 'Database'. A large blue arrow points from this single instance to the right, where four separate boxes represent scaled instances. The top row contains 'Instance 1' and 'Instance 2', each with 'Web App' and 'Back End' components. The bottom row contains 'Instance 3' (with 'Web App' and 'Back End' components) and 'Instance 4' (with only a 'Database' component). Arrows indicate that the 'Web App' and 'Back End' components of all four instances connect to the 'Database' component of Instance 4, demonstrating a shared database architecture for scaling.
